

Your eval suite is your validation evidence

EVIDENCE PACK · ONE PER APPROVED COMMENTARY

trace ID

Immutable archive, in the firm's hands

written automatically at approval · not a vendor's retention tier

GOVERNED UNIT

= the use case, not the model

Monthly attribution commentary

Owner
head of performance reporting

Materiality
tier 1, client-facing

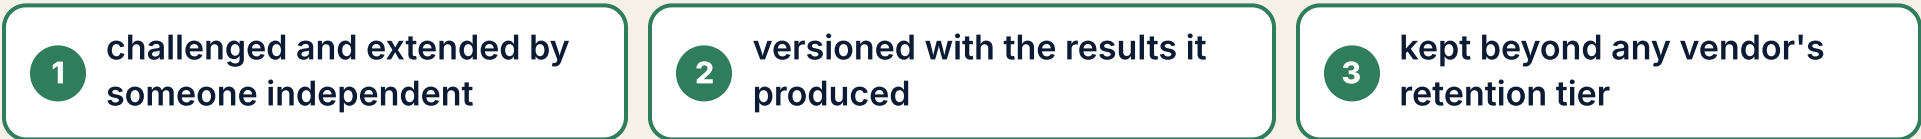

Version bundle
model, prompt, index, tools: all pinned

Use limitation
no figures generated by the model

Foundation model

recorded as a vendor component, version pinned

THE EVAL SUITE IS VALIDATION EVIDENCE ONLY IF IT IS

THE SIGNAL

Validation currency

share of material use cases whose validation covers the model, prompt, index and tool versions running today. Target **100%**; below it, an approval no longer describes production.

WORKED EXAMPLE · STEP 18

L1 C6 L2 C1 L3 C2 L4 C4 L5 Reg L6 C7 L7 C5 L8 C3 L9 C8

One evidence pack per approved commentary, keyed to one trace ID and kept in the firm's own archive. Generic, illustrative worked example.
