

Build memory last, on purpose

RECOMMENDED BUILD ORDER · PHASES 0 TO 7

INSET · THE MEMORY WRITE PATH

FIRST QUESTION

Does this use case need long-term memory at all?

Often session state plus retrieval of approved knowledge is enough. Style and terminology belong in a versioned file a person approves.

THE SIGNAL

Erasure completion time

request to deletion confirmed across store, indexes, revisions and backups: within the one-month statutory window, with an internal target well inside it
