

Your eval suite is your validation evidence

THE EVAL SUITE IS VALIDATION EVIDENCE ONLY IF IT IS

- 1** challenged and extended by someone independent
- 2** versioned with the results it produced
- 3** kept beyond any vendor's retention tier

THE SIGNAL
Validation currency

share of material use cases whose validation covers the model, prompt, index and tool versions running today. Target **100%**; below it, an approval no longer describes production.
