

What the agent must never do matters more

IT MAY	
✓ draft narrative around figures it is given ✓ explain allocation, selection and currency effects in house style ✓ cite approved market context ✓ propose wording, and style rules for a person to approve	
<i>what it may do is short</i>	
IT MUST NEVER	
✗ generate, round or "correct" a number	read-only tool numeric comparator
✗ treat a figure from retrieved text, memory or a parsed document as data	document-derived tag context-only rule
✗ present inference as source	grounding check citations
✗ publish without a recorded human approval	approval interrupt
✗ call a write, email or web tool	allow-list
✗ send client identifiers outside the approved route	tokenisation
✗ retrieve another fund's or client's material	entitlement filter
✗ run on an unpinned model	version pin
